

LEXAN AND SHEET METAL

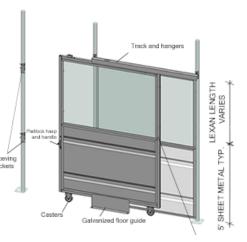

EXAMPLE:

Typical 6'W x 8'H tunnel gate shown here.

Reinforcement tube is included on all tunnel gates for extra support and rigidity.

Panel configuration and quantity will vary based on gate dimensions.

Assembly instructions brackets are specific to the size and material of your gate. See Installation Manual for complete details.

TUNNEL GATE

Description

When a wide opening and full height clearance are required for forklift access, nothing works better than a Cogan tunnel gate. All tunnel gates are equipped with a padlock hasp and heavy-duty 5" soft rolling casters. The top track guide allows for easy slide maneuverability, while the strong bolted steel handle offers a sturdy grip. Doors are made of framed 3/16" thick clear Lexan and heavy-duty 16GA corrugated steel framed in 1 1/4" x 1 1/4" x 12GA structural angle.
